### Indoor Life Makes Fat

TRY OIL OF KOREIN TO KEEP WEIGHT DOWN, OR TO RE-DUCE SUPERFLUOUS FAT.

People who are confined within doors and who are deprived of fresh, invigorating air and exercise must take precaution to guard against over stoutness, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying this excess burden. Any persons who are satisfied in their own mind that they are too stout are advised to go to Bland's Drug Store, Farrell's Drug Store, or any good drugist and get a box of oil of korein capsules, and take one after each meal and one just before retiring at night.

Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy; footprints become lighter and the skin less flabby in appearance as superfluous fat disappears.

Oil of Korein is inexpensive, cannot injure, and helps the digestion. Any person who wants to reduce 15 or 20 pounds is advised to give this treatment a trial.—Advertisement.

## HUGHES TALKS TO BIG CROWDS AT STATIONS

Republican Nominee Defines His Meaning of "Dominant Americanism."

**MEDFORD, Ore., August 18.**—Charles E. Hughes, southbound on his thirty-five hour ride from Portland to San Francisco, talked on the tariff and the national honor Thursday to crowds which assembled at stations along the way. From the rear platform of his car the nominee made addresses at Eddle, Roseburg, Grant's Pass and here. In each he also summarized his stand on preparedness, protection of American rights and industrial co-operation.

At Riddle Mr. Hughes declared a "recognition in American repute," due to "a policy of vacillation," had brought the country nearer to war than it would have been had a firm and consistent policy been maintained. "Those who think we are decadent and weak and haven't got the old indomitable spirit are mistaken," he said. "They do not represent the country."

In his address at Grant's Pass Mr. Hughes defined dominant Americanism as follows:

"We must have a good drive ahead; and there is no reason why in this country with its ability and natural resources we should not have permanent prosperity. To do that we must look after our own. That is what I mean by dominant Americanism, able to take care of American interests."

"In addition to that we want also—and you cannot have much of a nation without it—an intense regard for our national honor and a disposition to maintain it. I am solicitous to preserve peace and good will."

"We want the friendship and good will of all the nations of the world. But if we are to keep out of trouble, we must respect ourselves and have others respect us. There is no safe guarantee of peace when others begin to see how much they can trifle with you and you decide you won't stand it. They have got to know you mean what you say and in the things which vitally concern you that you are prepared to maintain them. That is good Americanism. It will give us peace with honor. That is what America wants."
